NO. 3, SEETHAL MANSIONS,

HYDERABAD-1.

Date... 6th Decr. 1959.

Dear Sir,

It is proposed to hold a National "Convention" of the "State Services" in the 1st week of January 1960. It is our proud privilege that Andhra Pradesh is given to convene it at Hyderabad. The Convention would last for three days, and it is tentatively decided to conduct it between the 3rd and 5th of January 1960.

A rough sketch of the Programme would be as follows :

- 3.1.1960 - Evening - Inaugural Session.
- 4.1.1960 - Morning - Delegates Session.
Afternoon: SYMPOSIUM - Open Session.
- 5.1.1960 - Morning - Delegates Session.
Afternoon - Public Meeting.

A brief Note on the objectives of the Convention is herewith furnished for your kind information. The Symposium in the afternoon of the 2nd day of the Convention has been included in the Programme in the hope that we would be able to secure personages holding independent, authoritative and progressive views on matters connected with the Civil Service in general, with particular reference to Wages, Prices and other cognate matters of interest to the Services. We wish to have the Symposium on the following subjects :

1. Wages and Prices - State responsibility.
2. Rights and responsibilities of Civil Servants in a Democratic set-up.

We need hardly say that your participation in the Symposium would be as valuable an instruction and education to Civil Services belonging to all Branches, as it is bound to be of inestimable value to the Administrations in the various States too.

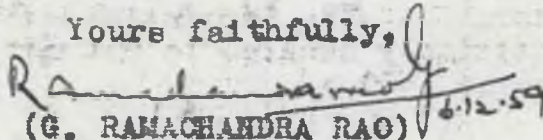

We would be most grateful for your kind acceptance of our request in this behalf to participate in the Symposium. As the period 3rd to 5th January 1960 is only tentatively fixed now, we

: 2 :

would communicate to you very shortly, the exact date on which the Symposium would be held, and in the meanwhile, we would be thankful to you for your kind acceptance of our invitation.

With best regards, and eagerly awaiting your kind acceptance,

Yours faithfully,

BRIEF NOTE ON THE OBJECTIVES OF THE ALL INDIA CONVENTION OF STATES' SERVICES TO BE HELD AT HYDERABAD.

|||||

Our Country has accepted as its aim a Socialistic pattern of Society. The administrative set-up of the Government at various levels is therefore naturally charged with responsibilities, it was not privileged to own before. This pleasant responsibility consists in carrying to fruition, in time and with efficiency and economy, the development programmes evolved by the "Planners".

It is not infrequently that delay in despatch of business in Govt. Departments is complained of, or the pace of progress on works is thwarted for some reason or other. The malady is, more often than not, traceable to the almost unquestioned continuance of the age-old patterns of administrative machinery with too much compartmentalisation and too little scope for co-ordination. In the existing set-up, the conditions of service, the scales of pay, the methods of work, and not the least of all, personnel management all these differ from State to State, and again as between the States and the Centre.

Reforms in the Educational system - at the Scholastic, Vocational and Collegiate branches - are a felt need, and these naturally have to be dealt with on a National level. The extent to which the desired reformation can be successfully brought about has, doubtless, a direct bearing on the position and status assigned to a "Teacher" in the Society at large.

If the Civil Services of the Country are to reflect the dynamism of the progressive policies of our Independent India - as they ought to - it is only necessary that an entirely new outlook is brought to bear on all the above aspects. Problems which are common to all the States are best tackled on a National level, in order that to produce really effective results. The crux of the whole ~~xxx~~ problem lies in ironing out the existing diversities and forging natural and really efficient units of administration in the Country. This will also help building up the cherished Emotional integration in its true spirit and content. Emotional integration which does not spread its healthy influence on the Services is, to say the least, not complete, and cannot yield the expected results.

A beginning has to be made to bring about the transformation. The most appropriate Forum to make a modest beginning in this National task, as far as the Services Personnel, at any rate, are concerned, would be for all the Organisations in the various States to meet in a Convention., in order to get at a forthright appraisal of their common problems, and to spotlight remedial measures. The broad objectives of the proposed Convention therefore is to have at first hand, a free exchange of information among the participating Organisations, particularly on all the above and allied aspects of common and National interest, with the determination to suggest measures to eliminate existing lacuna, to keep pace with the changed objectives of Society and Administration.

The Convention will direct its energies to this end.

Respected Sir,

As General Secretary of the Club, permit me to present my greetings to you and to draw your kind attention to a point of fact which, I am sure, will receive your whole hearted approval.

As the name of our organisation indicates, we offer to our members facilities of sports, library and other cultural activities which have gradually come to occupy an indispensable position in the life of every human being.

As a further step to the achievement of this purpose, we have decided to hold one Annual Social gathering on 24th and 25th of March, 1960. This is the first of its kind to be held in our office and naturally we expect this to promote that feeling of social solidarity and to create that atmosphere which is indispensable in harmonising our different points of view and rendering us fitter subjects of the socialist state. Though as employees, we are passing through a period of acute financial stringency, we do not see in it a reason to postpone this venture as festival of this nature always offers us that strength by which we can face life with renewed vigour.

On this occasion nothing will be more welcome to us than a message from you which will show us that our endeavour has the support it needs.

We thank you for your kind invitation to participate in your Sixth Annual Conference.

On behalf of the All-India Trade Union Congress, we send you our fraternal greetings and good wishes for the success of your conference. We are sure the joint action which your Federation along with other organisations of Central Government employees are contemplating will help in realising your outstanding demands and secure justice to the Central Government employees.

The united struggle of the Central Government employees on demands relating to important questions of work and living, as principles of wage fixation, etc. so callously disregarded by the Central Pay Commission, has the support of the entire TU movement.

With warm greetings,
